## User Guide

## TRAMPOLINE CANOPY

Got a Problem building your Trampoline tent?  
Call us on 1-877-927-8777 and we can help

**WARNING:** Read these assembly instructions carefully before attempting to assemble or use this product. Keep this user guide in a safe place for future reference.

## IMPORTANT INFORMATION

- **WARNING! ADULT SUPERVISION & GUIDANCE REQUIRED AT ALL TIMES.**
- Recommended age 6+ years.
- Only 1 user allowed at a time.
- Before assembling your tent please ensure you have assembled your Trampoline correctly and read all warnings in the manual.

### **WARNING:**

1. The owner and supervisors of the trampoline canopy are responsible to make sure all the users are aware of practices specified in this manual.
2. Trained Spotter supervision is recommended.
3. The trampoline should be placed on a soft level surface at least 2m away from any structure or obstruction, also provide adequate overhead clearance.
4. Inspect the trampoline / enclosure and Trampoline Canopy before each use, and replace any worn, defective, or missing parts.
5. Remove any obstructions from beneath the trampoline before each use.
6. Do not allow more than one person on the trampoline. Use by more than one person at the same time can result in serious injury.
7. Use the trampoline only with appropriate adult supervision.
8. Do not attempt or allow somersaults. Any misuse can result in broken bones or injuries to the head, neck, legs and back. Landing on the head or neck can cause serious injury, paralysis, or death, even landing on the middle of the bed.
9. Bounce only when the surface of the bed is dry. Wind or air movement should be calm to gentle. The trampoline/Trampoline canopy must not be used in gusty or severe winds, rain or adverse weather conditions.
10. Warning! Keep away from fire.
11. Not waterproof or made for camping.
12. Never shelter in the trampoline canopy during a thunderstorm.
13. Do not attempt to put up this product in windy, rainy conditions.
14. Do not continue to use this product if any part of the frame becomes either bent or broken.
15. Warning. Only for domestic use.
16. Warning! Not suitable for children under 36 months. Small parts. Choking hazard!
17. Remove the trampoline canopy when not in use.

# ASSEMBLY

**Step 1** Please unfold the FRP poles Black and Blue and join them together to make long poles.

**Step 2** On the inside of the canopy roof, insert the black FRP poles through the sleeves and into the pocket in the centre. Fix the poles to the canopy with the Velcro straps.

Close the velcro pocket at the edge of canopy. Repeat this for the 3 remaining poles.

**Step 3** Slot one of the Blue FRP poles through the sleeve on bottom of the Trampoline canopy. Slot the another Blue FRP poles through sleeve on bottom of the trampoline canopy.

You will now join the two ends of Blue FRP poles together with fitted pole connectors, this will require two people. Both people hold two of the poles end sections and walk towards each other to bend the poles into a circle.

As soon as the poles are bent enough, insert the connectors into the socket on the other pole (1). Push the pin inwards (2) and fully insert the connector. Ensure the pin is protruding through the slot in the socket.

#### Step 4

- Slide canopy over top of trampoline safety net so canopy is on the outside (see diagram).
- Position the canopy poles so they align with the safety net poles. Person 1 should stand inside the trampoline on the bounce mat to guide the poles into position, whilst Person 2 stands outside the trampoline to help.  
Note: The canopy poles rest on the hoop, beside the top cap of the safety net poles.
- Carefully pull down the sides of the canopy around the frame of the enclosure.

**Step 5** Cross the strap with plastic hook over the toprail frame to hook onto the V-ring of the trampoline. (See diagram)  
Repeat this step with the remaining straps.

Cross the strap with plastic hook over the toprail frame to hook onto the V-ring.

Strap with plastic hook on bottom of canopy.

The Trampoline Canopy is now full assembled. Make sure all parts are securely attached.
